

# Scopus & SciVal self paced learning videos

**Data** | Curated. Connected. Complete

**Alexander van Servellen**  
Senior Consultant, Research Intelligence  
Elsevier, Singapore

## SPEAKER

Alexander van Servellen is a Senior Consultant for Research Intelligence at Elsevier. He has over 10 years of experience in the field of research analytics, and works closely with academic and government institutions to help them use information and analytics to improve the efficiency and impact of research. He is originally from the Netherlands, and has been living and working in Singapore since 2013, where he serves institutions in South East Asia. Alexander has a MSc in Developmental Psychology, from University of Amsterdam, and has worked with Elsevier since 2008.

Scopus uniquely combines a comprehensive, curated abstract and citation database with enriched data and linked scholarly content.

SciVal offers quick, easy access to research performance of more than 18,900 research institutions and their associated researchers from 231 nations worldwide.

# Self-paced learning videos for Scopus and SciVal recorded during covid lockdown
